Meets all FMCSA safety requirements

Special Note- See dealer for specific tank measurements

If the part number ends in LH or RH, then the tank is specifically for either the left hand (LH) or right hand (RH) side, respectively.

LH = Driver's Side   RH = Passenger Side

If the part number ends in LF or RF then the tank can be located on either side of the truck.

LF for Driver's Side (the A LH dimension would be toward the front of the truck)
RF for Passenger's Side (the A RH dimension would be toward the front of the truck)

The overall length measurement (C dimension) is from end cap to end cap.

Consistent OEM Quality:

Mirrex bumpers offer many advantages over “will fit” bumpers, because they combine a mirror-bright finish with superior resistance to rust, cracking, and peeling.
